My Health Story

Manage your care

My Health Story helps you:

— manage your health information safely & privately

— keep your health information on-hand 24/7

— store medical documents & track your treatments

— avoid fragmented care & repeating your story

— easily share your information ahead of appointments

— make sure you remember everything

— make appointments more efficient

— make & share preparatory notes for appointments

— validate your experience

— feel confident & empowered

— visualise characteristics, symptoms & life impact

— log your health team views, and
  so much more.
